“A Metaphoric Story of Transformation That Will Ignite Your Imagination”

Enchanting new film “Parvaneh” by JFA Productions makes its world premiere on Sunday, February 5th 2023 at Regal theater, located in the Sherman Oaks Galleria.

LOS ANGELES, CA – (JFA Productions – February 5th, 2023) The highly-anticipated film “Parvaneh” has its premiere screening on February 5th at the Regal Sherman Oaks Theater. This new film was directed by Joseph Hovsepien, who is well known for his award-winning past works including the documentary “A Cry From Iran”, and the feature films “The Tune of Nostalgia” and “Closure.” Joseph is known for beautiful, compelling stories that shed light on difficult issues of freedom of speech, persecution, and human rights.

Butterfly is a metaphoric story of transformation, encased within a body of motion, which holds a powerful sway over imagination. Cocooned within a multi-layered reality of life Parvaneh gracefully carries her guarded wounds by dancing on the path she trusts, is unfolding before her by God.

Dancing to her is thinking in movement, to know as you go along, to improvise, rather than calculation of a trajectory in advance of its social execution. As she proceeds step by step, she grows wiser, along the various paths of her entanglement in a tantalizing yet textured world around her that keeps changing. So as she.

More information is available on the film’s official website: www.parvaneh.jfapro.com or its IMDB page: www.imdb.com/title/tt26241096

“Parvaneh” is already an award-winning film, having won Best Cinematography at the International Motion Picture Awards, as well as being selected for screening in several other film festivals, including “California Women's Film Festival” and “Logcinema Art Films”.

About JFA Productions (www.JFAproductions.com)

JFA (Joseph Film and Animation) Productions was founded in 2000 by Joseph Hovsepien. When Joseph’s brother Andre joined the company, it quickly expanded into a full-service production house. Today, JFA is a mid-size production company, offering full video services while continuing to produce films, documentaries and more. Joseph is well-known for his human rights related work, including the award-winning documentary A CRY FROM IRAN, which is featured on Amazon Prime. His latest short film, WE WILL WIN, was created in support of the “Women Life Freedom” revolution in Iran and has been viewed by millions around the world. JFA Studio is located in Burbank, CA, and has been home to many major network productions over the past decade.
